SENIORS,

Walking through the
hallway, Opening the door...
Things so much different now than they
ever were before
We wonder where the time went and our memories
are filled
With times we laughed and times we cried and scars
that never healed
And throughout life we've yearned for days when we would
not be here
But now as goodbyes fill the air and days fall from the
year
We wonder how we made it and why it has to be this way
But in the end, all we can do is sit back and simply
say, "Tomorrow is another day."
And soon the sun will set and even when the light
may fade
The memories we can't forget.

Homecoming Activities Enjoyed By All

2 ►

Even though the Homecoming game may not have ended the way we wanted, our students enjoyed a great Homecoming Week. Spirit Week featured skits from the Advanced Theater class which added some entertainment to the morning school news program, "GNN2". The traditional Thursday evening GHS parade was followed by a bonfire and a dance afterwards. Crazy Hat and Tie Day, Favorite College Day, Class Colors Day, School Colors Day, and Western Day were the themes for dressing for each day of the week. Jaime Bennett, escorted by Adam Cox, was crowned Homecoming Queen during halftime of Friday night's game.

PEOPLE

With one of us for all
And all of us for one
After all this time on earth
Our lives have now begun
We come in many colors
We all have different names
And though our lives may never cross
We'll all still be the same
Cause we all share those memories
And soon we'll all be done
With one of us for all
And all of us for one.

FALL SPORTS

Cheers echo through the falling leaves
Winds whisper of touchdowns
Cross country's labored breaths are heard
As feet soar over the ground
Clubs slice quickly through the air
And speak of true success
Balls gliding over emerald lands
Before coming to a rest
Shrill cries of whistles fill the room
As shoes squeak across the floor
And nylon netting slaps the ball
Like so many times before
In different places and even different games
We laugh, we cry, we cheer them on
Cause we love them all the same

WINTER SPORTS

The wind flows silently through the leaves as white crystals chill the air. Inside, sharp squeals of athletes rushing down the floor and the smell of competition fills the gymnasium. Their breath becomes labored and their skin cools as tiny droplets of endurance fall to the wooden floor. They are athletes. They are the people who can make us laugh or even cry based solely on the number of times a ball fell into a hoop or an opponent's shoulders thudded on the mat. When the final point is scored or the final buzzer has sounded, they run their fingers through a matted jungle of hair and congratulate those who have chosen to share the same court or mat. Then, they leave the warmth of the gym, knowing that they won't be in the cold for long — they'll be back tomorrow to start all over again.

ACADEMICS

Academics enthralls our existence from the moment our footsteps echo in the school halls. Year after year, we yearn for the day when the incessant ringing of bells and the fervent scratching of chalk against the board will cease forever. Through all of the tests and quizzes, we forget that knowledge exists at the very core of life. Those people who stay in the building day after day are not only teaching us how to add, read, or write; they are giving us a chance at a life we could never have without them. For that, we owe them everything...or at least one hour of our day.

STUDENT LIFE

We drag ourselves from the bed to hit the snooze button one more time. We dislike red lights and stop signs that force us to sprint through the doors before the last bell rings. We shuffle through the halls with heavy sighs, yearning to escape the monotony of another school day. We jump from our seats, punching a clenched fist of victory into the air, as our teams rise to every challenge. We refuse to believe that we may have to settle for second best and strive to develop our every dream and achieve our every goal. We are the future. For now though, we'll settle for just being students.

Graham High School, with its staff and students, has been my home for one of the most important years of my life: my senior year. I have met wonderful people and I have learned a lot. Just being part of the American culture has broadened my perspectives and changed me as a person. I want to thank everybody for helping me and for making my senior year wonderful.

Jaime

From the moment you were born we knew God had given us a true gift. It seems like only yesterday that you were that tiny baby struggling for every breath. The Lord answered our prayers and has allowed us to share in your life.

With your first breath you had determination and a strong will. You have worked so hard for all your accomplishments, while always keeping the Lord first in your life. God has blessed you with unique talents and abilities, and you have used those gifts well.

In a few days you will be embarking on yet another step in your life. As you celebrate this milestone, never forget what has brought you this far. Remember the love of your family and remember that God has a special plan for your life.

We Love You,
Mom, Dad, and Chad

You put the joy in all we do,
We can't imagine life without you.

You've grown up so very fast,
High School will soon be past.

As you move on, our little girl we will miss,
We know you must go, but remember this;

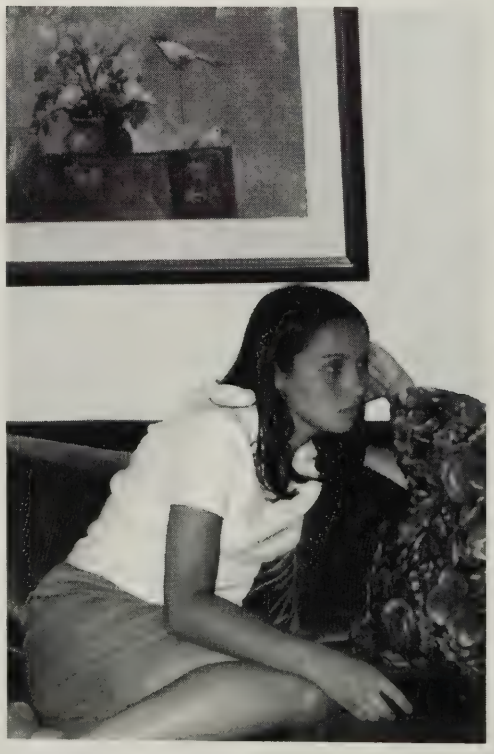

In all you do try your best,
As life takes you on its quest.

All of Our Love,
Mom, Dad, and Scott

Long gone are the days of peek-a-boo and hide and seek, seeing the wonder in a floating balloon, first words, first steps and picture books. Gone also are the days of collecting Transformers and Hot Wheels, sinking your first basket and jumping in the deep water for the first time. Your high school years have held many other "firsts" and also some "lasts." Some happy, some sad, some that were designed to help you and some designed to help you learn to help others. Adam, you are a wonderful son and we have always been very proud of the person you are. Let God guide your life and you will always know love and peace. We love you very much.

Thank you for being a great big brother. Good luck in everything you do. I love you.

DATER'S BILL OF RIGHTS

I have the right to refuse a date without feeling guilty.

I can ask for a date without feeling rejected or inadequate if the answer is no.

I do not have to act macho.

I may choose not to act seductively.

If I don't want physical closeness, I have the right to say no.

I have the right to start a relationship slowly, to say, "I want to know you better before I become involved".

I have the right to be myself without changing to suit others.

I have the right to change a relationship when my feelings change. I can say, "We use to be close, but I want something else now".

If I am told a relationship is changing, I have the right not to blame or change myself to keep going.

I have the right not to dominate or to be dominated.

I have the right to act one way with one person and a different way with someone else.

I have the right to change my goals whenever I want to.

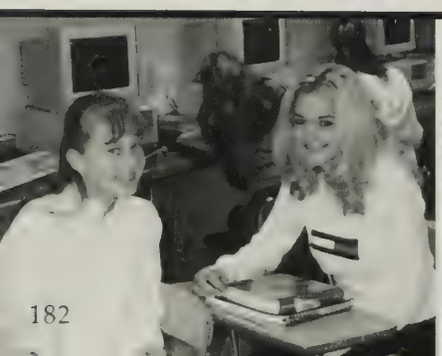

I have the right to tell someone I do not like the way I have been treated and that I choose to end the date or relationship.

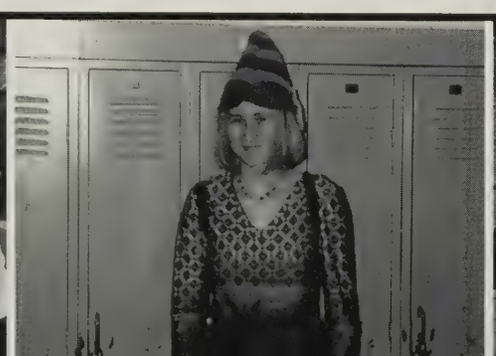

I have the right not to be responsible for my partner's behavior.

I have the right to express my opinions and have them respected.
